GLOBAL PITCH COMPETITION

FINTECH

10Life

Website <https://www.10life.com/>

Location Hong Kong SAR

Founder Mr. Dennis Lun

Fundraising Stage Series B

Description

The younger generation has walked away from agents due to commission driven advice and poor claims service — in a \$1 Trillion insurance market. 10Life has created a Fair Digital Insurance Companion designed to capture the future generation.

3AI

Website <https://www.3ai.co/>

Location United Kingdom

Founder Jacob Ayres-Thomson (CEO), Simon Judd (CTO), and Hassan Salamony (COO)

Fundraising Stage Series A

Description

3AI's Alpha Intelligence analyses 400+ factors per stock across 20,000+ public equities, generating 5+millions forecasts to uncover alpha and drive decisions across global capital markets, enabling investors with deeper, explainable, data-driven insights.

FinCatch Limited

Website <https://www.fincatch.io/>

Location Hong Kong SAR

Founder Lok Kan Chan

Fundraising Stage Pre-Seed

Description

FinCatch fills finance's gap in automated, qualitative, and continuous time-aware analysis. Our AI platform delivers deep, actionable insights that empower institutions and individuals to navigate complex fast-changing markets efficiently.

GLOBAL PITCH COMPETITION

FINTECH

Anlan Infotech

Website <https://www.anlantech.cn/>

Location Shenzhen, China

Founder Haibin Li

Fundraising Stage Series A

Description

We transform global supply chain insurance services.

SAFFE

Website <https://safe.ai/>

Location United Kingdom

Founder Mr. André Coelho

Fundraising Stage Series A

Description

Saffe is a cutting-edge fraud prevention platform that combines AI and facial biometrics. Its privacy-first approach ensures seamless customer verification and easy integration, empowering businesses to enhance security while delivering a frictionless user experience across diverse applications.

CONSTRUCTION & PROPERTY TECH

GRAYMATICS

Website <https://graymatics.com/>

Location Singapore

Founder Abhijit Shanbhag

Fundraising Stage Series B

Description

Graymatics is an AI-driven video analytics platform that transforms CCTV video into strategic assets, providing real-time insights to enhance safety, efficiency, and operational efficiency across sectors like transport, retail, construction, smart cities.

LifeSparrow Solutions Limited

Website <https://www.lifesparrow.com>

Location Hong Kong SAR

Founder Josua CHAN Wing-hei

Fundraising Stage Pre-Seed

Description

Waysense uses VLA AI to let robots/drones navigate like humans: safe, precise, intuitive. No beacons or maps needed—just say your goal in English for smart guidance. Transform homes, warehouses, factories with easy automation.

Voyager AI Limited VOYAGER AI

Website www.voyageraihk.com

Location Hong Kong SAR

Founder Mr. Johnson Cheng

Fundraising Stage Pre-Seed

Description

Voyager AI helps enterprises apply AI to their private data—turning it into a competitive advantage. Our on-premise agentic AI system automates workflows, analyzes data, and powers decision intelligence. Proven with clients in education and real estate.

CONSUMER

TG0

Website www.tg0.co.uk

Location United Kingdom

Founder Dr. Liucheng Guo, Ming

Fundraising Stage Series B

Description

TG0 pioneers AI-powered sensing materials that replace complex electronics with flexible, sustainable polymers. Our patented platform enables intuitive, pressure-sensitive interfaces for automotive, robotics, healthcare, and sports applications.

Apping Technology

Website <https://apping.biz/>

Location Maylasia

Founder Mr. August Wong

Fundraising Stage Series A

Description

Apping Tech builds an army of AI-powered influencers (AI KOLs) for brands and creators. We automate content, posting, and persona growth—helping non-tech-savvy clients scale their presence across platforms with affordable, always-on virtual spokespeople.

粒子互动 Aura Tune

Website N/A

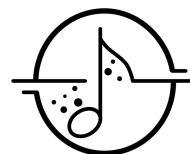

Location China

Founder Mr. Jaden shen

Fundraising Stage Pre-Seed

Description

Auratune is a tech-driven startup dedicated to the "Silver Economy," pioneering the fusion of AIGC technology with a wide range of traditional musical instruments. We redefine the musical experience by creating a digital bridge between cultural heritage and modern accessibility.

Code-Create Limited

Website www.code-create.com.hk

Location Hong Kong SAR

Founder Ms. Kim Hung Wong

Fundraising Stage Pre-Seed

Description

AiDA 3.1 is a first-to-market technology that empowers fashion designers, based on their creative inspirations, to work with AI to create original designs. Just a few clicks, designers can choose or refine options to develop fashion collections.

TinTin Intelligence

Website <https://tintin-x.com/>

Location Hong Kong SAR

Founder Mr. TIANQIANG LIU

Fundraising Stage Pre-Seed

Description

Effortlessly generate and edit high-converting product visuals through chats. HuHu AI Agent works as your customized assistant to create everything you need for your online store.

- ✓ One photo, all your content.
- ✓ Revamp with a URL.
- ✓ Reach more customers.

GREEN TECH

ContexQ Pte Ltd

Website <https://stellerustech.com/>

Location Singapore

Founder Mr. Ajay Kakarania

Fundraising Stage Pre-Seed

Description

ESG intelligence platform that detects greenwashing through multi-layered AI forensics—connecting data across languages, borders, and relationships.

MUI-Robotics

Website <https://mui-robotics.asia/en/>

Location Thailand

Founder Dr. Wandee Wattanakrit

Fundraising Stage Pre-Seed

Description

Our AI-Nose can smell just like humans.

Our technology detects, classifies, and visualizes odors in real time — enabling industries to ensure product consistency, safety, and sustainability with “Smell You Can See”.

GREEN TECH

Qarbotech

Website <https://qarbotech.com/>

Location Malaysia

Founder Mr. Amirul Merican

Fundraising Stage Series A

Description

Qarbotech's QarboGrow is a photosynthesis enhancer that boosts crop yields sustainably by up to 60%. By improving carbon uptake efficiency, it empowers farmers to increase income, reduce fertilizer dependency, and support national food security goals.

QARBOTECH

Stellerus Technolgy Limited

Website <https://stellerustech.com/>

Location Hong Kong SAR

Founder Mr. Weifan XU

Fundraising Stage Series A

Description

Feilian launches the world's first satellite constellation to map global 3D wind fields hourly at kilometer-scale resolution. This is accomplished through Low-Cost, Lightweight Hyperspectral Infrared Atmospheric Sounder (LYRAS) attached on the twin-satellite constellation.

Stellerus

HEALTHCARE

ACTuWISE Limited

Website <https://actuwise.org/>

Location Hong Kong SAR

Founder Prof. Yuen Yu Chong

Fundraising Stage Pre-Seed

Description

ACTuWISE combines AI and Acceptance and Commitment Therapy to provide personalized mental wellness, risk-stratified screening, micro-interventions, and triage for family caregivers. It also offers simulation-based ACT training for mental health professionals.

HEALTHCARE

AutOmics Biotechnology Inc.

Website <https://automicsbio.com/>

Location Canada

Founder Mr. Hongtao Gu

Fundraising Stage Pre-Seed

Description

AutOmics is transforming pathology with the Primordia Analyzer—a continuous, fully automated multi-omics platform enabling high-throughput 3D analysis for faster, more accurate diagnostics and precision medicine, empowering next-level targeted therapy.

Circular Health Limited

Website <https://www.circular.xyz>

Location Hong Kong SAR

Founder Mr. Amaury Kosman

Fundraising Stage Series A

Description

Circular is a next-generation health platform that replaces bulky medical devices with a sleek smart ring. It continuously tracks 140+ biomarkers—including ECG—for early detection and accessible screening of health issues.

GUTolution

Website <https://gutolution.com>

Location Hong Kong SAR

Founder Mr. Wilson Chang

Fundraising Stage Series A

Description

Powered by AI and next-generation sequencing, GUTolution's gut microbiome health test leverages your unique bioinformatics data to offer precision nutrition. This aims to eradicate cancers and neurodegenerative diseases, extending human health span to 120 years.
